

CADWorx® & Analysis Solutions Technology Day

Chicago | October 23, 2018

Join us for an in-depth look at how you can address common challenges in delivering your next plant design project. Discover how to improve your efficiency in project execution and expand the value you deliver to your clients:

- Insert a nonintelligent P&ID into a CADWorx P&ID project database to leverage existing facility drawings on a brownfield project.
- Generate 3D structural models with CADWorx Structure and reduce duplication of effort by leveraging that same model for the basis of your structural engineer's analysis with GT STRUDL®.
- Modify an existing plant facility by leveraging point cloud data and adding equipment and piping in CADWorx Plant Professional.
- Learn how piping and pressure vessel engineering in CAESAR II® and PV Elite® ties into the workflow and why the analysis of these components is critical in brownfield projects and operations.
- Realize the speed and power of Isogen® to automate your project deliverables.

Time	Duration	<i>Dependable Plant Design with CADWorx</i>
8:30 AM	0:10	Meet and Greet
8:40 AM	0:20	Welcome & Keynote
9:00 AM	0:50	Session 1 – P&ID, Equipment
9:50 AM	0:10	Break
10:00 AM	0:45	Session 2 – PVE Elite & Tank, CADWorx Structure
10:45 AM	0:15	Break
11:00 AM	0:45	Session 3 - CADWorx Structure, GT STRUDL
11:45 AM	1:10	Lunch

Time	Duration	<i>Reliable Systems with Better Analysis</i>
11:45 AM	1:10	Lunch
12:55 PM	0:05	Welcome
1:00 PM	0:45	Session 4 – CADWorx Piping
1:45 PM	0:15	Break
2:00 PM	0:45	Session 5 – CAESAR II
2:45 PM	0:15	Break
3:00 PM	0:45	Session 6 – Project Deliverables
3:45 PM		End
